Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

Applicant's amendments filed 5/1/06, have been fully considered and reviewed by the examiner. The examiner notes that claims 1, 3, 15, 21 and 23 are amended. Claims 2, 4, 5, 7, 9-13 and 24-27 are canceled. Currently claims 1, 3, 6, 8 and 14-23 are pending in this application. The amendment to claim 1 overcomes the objection of the previous office action. The amendment to claim 1 overcomes USC 112 second paragraph rejection. The amendment to claim 21 overcomes the USC 112 first paragraph rejection.

The amendment to the claims including the negative limitation excluding the presence of B and P overcomes the previous office actions art rejections regarding Bouffard. It is of note that upon cancellation of this limitation that the previous round of rejections will be reinstated.

Terminal Disclaimer

The terminal disclaimer filed on 5/1/06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6,887,514 has been reviewed and is accepted. The terminal disclaimer has been recorded.

The terminal disclaimer filed on 5/1/06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6,716,476 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 3, 6, 8 and 14-23 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Referring to claims 1 and 21, the phrase "it does not require the use of B and/or P" on page 28 as a gas does not provide basis for a film that does not contain P or B. Furthermore it is not clear from the phrase on p. 28 what P or B is being used for. The support on p. 33 actually teaches away from excluding P or B by teaching that they can be incorporated into the film. Additionally claims 19 and 20 require the presence of modifiers including B and P be present in the film. From this it is not clear that the applicant had support for the negative limitation excluding the presence of B and P in the originally filed specification.

The remaining claims are rejected as they are dependent on rejected claims.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 20 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The applicant claims that B and or P cannot be present in the film in claim 1 however, in claim 20 B and P are listed as modifiers in the closed group. Accordingly it does not make sense to include materials in the film that have expressly been forbidden.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1762

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
